Genuine quality features based on performance and performance genuNot based on efficiency, life and flow Ryco has developed a reliable industry standard for automotive filtering in 3 Color areas: how long a filter lasts for before it clogs the filter's dust-retaining ability Determines how long its life The more high-quality paper inside the filter means the more earth it will hold and the higher the last efficiency the percentage dirt that a filter removes the filter paper or "media" determines what \* Air or fuel has to pass and where the dirt is trapped working on the theory of a crooked path, more twists and turns a part of dirt has to take, the higher the probability of being captured flowing like easily air, Oil or Fuel Flows through the filter minimizing resistance ensure that the engine is never starving of air, \* or fuel band flow in a filter deprives the engines of their vital needs, causing them to work harder, lose power and create wear Quick engine in smaller 2169a sets These Views: Daihatsu Delta V116 V118 V119 V119 Delta V116 3.7L 14B OHV 8V Diesel Direct Invol. 4CYL 5SP Man Cab Chassis 4x4 [04 / 1998-12 / 2002] Jeep CJ Series CJ7 2.4L Diesel Invol. 6cyl 4SP Auto 4D Wagon 4WD [08 / 1980-07 / 1990]
